THE BEE HIVE!

New Carpets and Rugs.

The carpetmen have now finished the work of enlarging our carpet room. Our stocks of new Carpets and Rugs are so large that we need not make additional space to handle them. We believe that we now have a Carpet Department that would do credit to any metropolitan store. From the choicest Home Carpet at \$1c to the best of Axminster at \$9c there is not a roll but will prove of exceptional value for the price asked. We are showing a larger and better assortment of Ingrains and Brussels than ever before. You'll find here the very choicest of patterns to select from, and you have the further advantage of seeing just how the carpet is going to look on your floor. We have also an immense stock of Smyrna and Moquette Rugs and magnificent Art Squares. Come before the best are picked over.

Some Rare Shirt Waist Bargains.

We carried over from last season ten dozen Shirt Waists. Rather than mix them with the new stock we have placed 'em on a separate counter and marked prices less than cost. The 40c and 50c kind are now 35c. Last year's 75c piece has been marked down to 30c. The 40c kind were lowly priced at \$1 and \$1.25 are now 50c. There are also a few that are \$2 now 95c. These Waists will sell quickly. Come before the best are picked over.

A SPRING COMPLAINT.

His face was drawn into a frown
As down the street he strode;
His furrowed brows, quickly cast,
Summed both sides of the road.
And as he went, his frown increased.
He seemed appalled by care;
His manner plainly showed to me
He was in deep despair.
He reached his office, sat him down,
And lost himself in thought;
Turned to the liner page;
"I don't think that we ought."
He took his morning paper,
Turned to the liner page;
But what he read there did not suit—
He dropped it in a rage.
All day long he never smiled,
He growled at everything;
I knew the reason when he said:
"It is so every spring."
He'd do it, too, no matter if
I strongly disapproved.
As soon as springtime comes around
My wife is bound to note it.

The Crowds Are Coming!

The first day of Sale of Hechinger's Selling-Out Sale points to the fact that the people are going to take advantage of it. As unseasonable as the day proved to be many customers had to await their turn to be waited on. The efficient force of salesmen handled the crowd wisely, and at the wind-up of the day's business it is believed all were waited on satisfactory.

The Stock Being So Large and Consisting Only of New, Choice Goods,

Is a guarantee to those who perhaps find it inconvenient to attend the sale at its beginning, that they can rest assured that they will find the correct things, no matter when they come. Naming prices in newspapers means nothing. Compare Hechinger's goods with those of other houses, at home or abroad, and you will quickly see what this sale means to you.

Men's and Boys' SHOES!

Are features in this sale. Smith & Stoughton, Packard & Field and Hanan's are the brands. None better in the world.

THE New Suits!

An instructive showing. If you haven't seen it you have no idea of the strides which have been made in ready-to-wear garments. Every suit has the mark of beauty and style. The tailor-made gown is essentially an American production. As we said recently, New York gives lessons to Paris and London in this branch of costume. This season our designers not only surpassed their rivals, they have surpassed themselves. Allow us to show you—it is no trouble, whether you buy or not. \$5.50 to \$20.

EMBROIDERIES.

The kind you begin by liking but do not fully appreciate until you have washed them a few times. They're the kind that stand rubbing. They don't get stringy and many. That's because they are made on a hand machine not rolled off by steam. Nevertheless—

THE OPENING GUN A RACIAL BATTLE. WARSHIPS NAMED

The War on the Coal Trust Begun in the United States Court.

COAL OPERATORS MADE DEFENDANTS.

Attorney General Griggs Has Made Application for a Perpetual Injunction Against Them.

Suit Filed by United States District Attorney Bundy in Cincinnati Friday—Instructions to Bring the Action Arrived From Washington Friday.

CINCINNATI, April 8.—United States Attorney General Griggs, through United States District Attorney Bundy, filed the anti-trust suit Friday against the C. & O. Fuel Co. and its others.

The government attacks for an injunction against the fuel company from carrying out its agreement with the other firms, alleging that a trust had been formed.

The fight against the so-called trust was begun some time ago before the interstate commerce commission, which found the charges practically sustained on one of the complaints, viz.: That the C. & O. railroad had the contract to carry the coal.

Then the matter on which the suit filed Friday was brought before the grand jury by Bundy and indictments followed. It came before Judge Thompson, who is now considering a demurrer and a motion to quash the indictment.

The injunction suit is the latest phase of the case, and instructions to bring it arrived from Washington Friday morning.

Bundy's bill of equity concludes: "Your orator * * * prays that an order be granted by your honors enjoining and restraining the defendants, either of them, from selling or shipping any coal or coke into any state other than the state in which they reside, under or by virtue of their agreement."

And that said defendants be restrained from continuing in any like combination or agreement.

"That each of said defendants be enjoined from further conspiring, agreeing, combining and acting together in any manner as set out in the complaint, and that said contract be declared void and illegal;

"That said unlawful trust and combination be dissolved by decree of this court.

"For all other and further relief that law and equity require."

The Japanese and Chinese Laborers on a Plantation Near Honolulu Have a Combat.

THE CHINESE TAKEN BY SURPRISE.

The Japanese Wielded Spiked Clubs, Knives and Axes With Deadly Effect on Their Adversaries.

Three Chinamen Were Killed, a Dozen More Seriously Wounded, Some Fatally, and About 40 Hurt—Twenty-Three Days and Seven Hours Arrested.

SAN FRANCISCO, April 8.—The steamer Mariposa arrived Friday from Australia via Samoa and the Hawaiian Islands.

A press representative at Honolulu sends an account of a racial battle between the Japanese and Chinese laborers on the Kahuku plantation, which took place on March 25. For some time trouble has been brewing between the Japanese and the Chinese. The Japanese, armed heavily and well organized, made an onslaught on the Chinese quarters, first having placed their own women and children in places of safety. The Chinese were taken entirely unawares. The Japanese wielded spiked clubs, knives and axes, and before the Chinese could make resistance three of their men were killed and a dozen seriously wounded, some fatally and about forty slightly injured.

The noise of the battle reached headquarters and the manager of the plantation, Mr. Wright, gathered a force of Lunas and went to the scene of the trouble. After considerable difficulty the belligerents were dispersed. A police agent then went to the plantation from Honolulu and martial law was declared on the plantation. Police from other sections were soon on the spot and before nightfall 55 police officers were on guard.

The Chinese fled from the plantation and great difficulty was experienced in locating them. Twenty-three of the Japanese ringleaders were arrested and seven Chinese were arrested.

The Chinese on the island are greatly excited, and the merchants in Honolulu look for further trouble, though the better class are making every effort to keep the opposing factions without in legal bonds.

The Japanese and the Chinese had some trouble on Saturday, the day previous to the battle, and the Japanese agent that they visited the Chinese quarters for the purpose of identifying the Chinese who engaged in the trouble on Saturday for the purpose of having them arrested. On Saturday the Chinese and Japanese quarrelers, they say the Chinese attacked them, and in the trouble which followed they secured the arms of the Chinese and used them with the effect above mentioned.

McKinley Gives Twelve Vessels Recently Provided for by Congress Their Names.

THREE BATTLESHIPS AND 9 CRUISERS.

In Battleships the States of Pennsylvania, New Jersey and Georgia Have Been Honored.

Armored Cruisers: West Virginia, Nebraska and California—Cruisers: Denver, Des Moines, Chattanooga, Galveston, Tacoma and Cleveland.

WASHINGTON, April 8.—Secretary Long has named the ships appropriated for by the last session of congress. The battleships are to be called Pennsylvania, New Jersey and Georgia; the armored cruisers, West Virginia, Nebraska and California; the six smaller cruisers, Cleveland, Denver, Des Moines, Chattanooga, Galveston and Tacoma.

Petitions by the hundreds have been flowing into the white house and navy department ever since the new ships were provided for by the passage of various names. The president and Secretary Long enjoyed the good natured rivalry in making the final determination. Consideration was given not only to the urgency of the industry brought to bear but also to the several sections of the country. Pennsylvania petitioned through Gov. Stone, Senators Quay and Penrose, and the entire delegation of the house of representatives.

Georgia did not petition the navy department and it is believed that the choice of a southern state was due to a desire by the president to compliment those with whom he visited on his recent southern trip. Senator Elkins and the congressional delegation was most active for West Virginia; Representative Mercer made it his business to beseege the navy department with petitions for Nebraska. The choice of California also seems to be a personal compliment, while the same rivalry was shown in other states. The same rivalry was shown among the cities, the mayors, city councils, chambers of commerce, etc., joining in the plea.

Three battleships, Pennsylvania, New Jersey and Georgia, are described in the act authorizing them as follows:

Three seagoing coast line battle ships carrying the heaviest armor and the most powerful ordnance for vessels of their class upon a trial displacement of 13,500 tons, to be sheathed and coppered and to have the highest practicable speed and great radius of action, and to cost, exclusive of armor and armament, not exceeding \$14,500,000 each.

The armored cruisers are similarly described, except that they are to cost \$10,000,000 each and to have a displacement of 12,000 tons.

The cruisers Denver, Cleveland and others are described as "protected cruisers of about 2,500 tons trials displacement, to be sheathed and coppered and to have the highest speed compatible with good cruising qualities, great radius of action and to carry the most powerful ordnance suited to vessels of their class and to cost, exclusive of armament, not exceeding \$14,140,000 each.

STILL FIGHTING AT APIA.

The American and British War Ships Continue to Shell Samoa Town—Several Casualties.

APIA, March 24, via San Francisco, April 8.—There have been lively times in Samoa during the past few days. The United States and British war ships have shelled Matafa's forces repeatedly and sailors have been landed in Apia to protect property. Numerous casualties have resulted on both sides. Adm. Kautz and the commanders of the British ships are awaiting advice from their governments, and in the meantime the shelling proceeds daily.

When Adm. Kautz arrived on the Philadelphia he spent two days in inquiries, and then called a meeting of all the consuls and the senior officers of all warships in the harbor. As a result of the meeting a proclamation was issued by the American admiral declaring that the so-called provisional government under Matafa can have no legal status under the Berlin treaty, and, therefore, can not be recognized by the consuls and naval representatives, and ordering Matafa and his supporters to quietly go to their homes and respect the laws of the Berlin treaty. It was further ordered that the consuls and naval representatives, and ordering Matafa and his supporters to quietly go to their homes and respect the laws of the Berlin treaty. It was further ordered that the consuls and naval representatives, and ordering Matafa and his supporters to quietly go to their homes and respect the laws of the Berlin treaty.

Adm. Kautz's proclamation was taken to Matafa and read to him by Flag Lieut. Miller. It was received in silence and no reply was made. Matafa and his chiefs quietly left and went to the western portion of the municipality, and it seemed as if they were about to obey the commands to return to their homes. The German consul, however, issued a counter proclamation in the Samoan language, which was distributed among the Matafas. The proclamation reads as follows:

NOTICE TO ALL SAMOANS: By the proclamation of the United States admiral, dated March 11, it was made known that the three consuls of the signatory powers of the Berlin treaty as well as the three consuls and naval men-of-war had been unanimous to not recognize the provisional government composed of Matafa and 13 chiefs.

"I therefore make known to you that this proclamation is quite false. I am the German consul general, I continue to recognize the provisional government of Samoa until I have received contrary instructions from my government."

"German Consul General."

"Apia, March 13, 1899."

The immediate result of this act was that the rebels turned back and prepared for war, declaring that they would not obey the admiral's order, and would prevent any food supplies from being brought into Samoa for the Malietoa natives.

THE JURY COMPLETED.

Twelve Men Selected to Try Mrs. Anna George for the Murder of George D. Saxton—All Married Men But One.

CANTON, O., April 8.—The jury which is to decide the fate of Mrs. Annie E. George, accused of the murder of George D. Saxton, was completed at 12 o'clock Friday afternoon, before court adjourned. Prosecuting Attorney Pomeroy had stated to the 12 men qualified an outline of what he expected the witnesses for the state to prove. Briefly summarized this is that on the evening of the tragedy and shortly before it occurred Saxton rode to the Althous house on bicycle and Mrs. George about the same time went to a point near there on a street car. The assassin, and he says this will prove to be Mrs. George, fired two shots and walked away; there was a cry as if for help. She returned and fired two more shots, then leaned over the prostrate body, found him dying and disappeared in the darkness. He claims Mrs. George's fingers were blackened with powder when arrested, and that she had not only threatened to kill Saxton but had long planned how to do it, and that she had outlined her plans to another party. He alleges that she carries not what relations are shown to have existed between the two; that they were not such as to have justified the crime on the evening of the tragedy, 1898. In connection with these relations he referred to the accused as an adventuress, pure and simple.

Mr. Welty intimated that the statement of the witnesses for the state was lengthy and that was deferred until morning.
